WORK HISTORY

Parts Authority LLC, Tucson, AZ

Internet Shipping, Oct 2022 - Nov 2024

- Hold multiple positions besides internet shipping such as managing the warehouse's inventory, allocating parts to their proper locations, finalizing orders, and reporting any issues.
- I advised the organization of staging parts in the internet shipping department by proposing ideas to improve the speed to finalize orders.

Walmart, Tucson, AZ

Warehouse Associate, Oct 2021 - May 2022

- Ensure that the warehouse's inventory is correct by using a mobile computer device
- Used handheld device to locate the product's location and picking parts for online orders
- Interacted with customers by assisting in locating parts around the store

University of Arizona Bookstore, Tucson, AZ

FC Receiving, Dec 2018 - Apr 2020

- Used database software ARC to input product information in the system such as customer names, suppliers, quantities of the product, and more.
- Occasionally interacted with the buyers to discuss the product's status and any issues concerning an order.

PROJECT

PL SQL Auto Parts Warehouse Project | Developer

Feb 2025

Link: https://github.com/Cephuez/PastProjects/tree/main/Auto_Parts_Warehouse_Project

- Technology used: Oracle SQL Developer, PL/SQL, Python 3.0, Pandas, SQLAlchemy, OracleDB, PowerBI, TKinter
- Design a database that holds information about car parts, orders, employees, etc
- Simulate real life work by allowing users pick parts from the warehouse, move them through the warehouse, and process orders.
- Created an interactive application where workers can login and navigate through windows to complete their duties such as picking and gathering parts for an order

EDUCATION

University of Arizona, Tucson, AZ
Bachelor of Science in Computer Science

May, 2021
